6. Carried out activities club in commune

The result;

- + Club in Yen Khe commune: We have 26 members including parents. Thanh Ba center discussed together with FFBB/BFA board how we can improve for some children who have no possibility to come to the center for activities regularly. The children also finished the school of some reason.
We started club activities in the villages and are carried out program every week. This is a lovely opportunity for the children to meet others and have fun. They attended some nice activities as music, draw and play games. All parent also joined club with the children. They learnt how to understand and the way to give love to children. After some months we can see the change in almost all children. Especially Tuan and Dien, Anh, Minh, Dung...Now they are happier because they get stimulation and nice activities. Some parents also get guidelines how to continue activate their child in the home.
- + Parent club: This is also a suggestion together with FFBB/Board. We call it “Strengthen program for parents with children with disabilities” We met once a month and device all families to 4 groups. For each group we made plan. In the club all parents shared about their children difficulties, economy... Center staffs gave them more knowledge in taking of children with CP, children with epilepsy, bad behaviors etc. The program is very successful and the parents are very happy to share and with others and they also get good advice with will strengthen them.
We are very happy to know that FFBB Board decided to continue supporting club activities for children and parents in 2017.
- + Sex education and cooking club: In this club we have 13 girls and parents. All girls learnt how to take care of their body, sexual abuse prevention and pregnant and prevent diseases spread through sexual contacts. This club includes consultant for parents how to understand their children. All girls and parents are very happy about that.

However some girl did not understand that so much yet (Hoa, Nguyet)

so the parent have to help them and give them more knowledge at home.

We also follow up the progress of girls after attending club.

In the same time we also carried out cooking club for girl. We guided them how to select good material for cooking and how to cook a simple meal at home. All of them excited with that and they would like to continue.

After 4 months we can see the positive changes of them. They like helping parents to do housework.

7. Support training IE for center staffs to improve the IE knowledge: In 2016 we had lack of provisional staff and not so easy to carry out all activities. FFBB/BFA Board decided to support Mrs Linh, Mr Ha and Mrs Huong to have training course in Special education department of Ha Noi University about autism and difficulties in learning. After training we have carried out 3 training courses for all teachers in school to hand over knowledge that we learnt. We also made individual plan for some children who need special support as Tuan, Long, Minh, Ngoc, Anh, Hiep, Hoang...

The professional staff have also visited schools in Thanh Ba district and gave some advice for teacher and help them to make individual plan for children with disabilities. We also follow up the progress of children with disabilities in schools and in whole district of Thanh Ba.

8. Microloan. 31st of December 2006 FFBB handed over a fund for microloan. Since then 70 families have had the possibility to borrow money. From the beginning they borrow about 2.000.000VND – 5.000.000 VND. Today they families prefer to borrow a higher amount about 9.000.000-10.000.000 VND. Most of them would like to invest in buying a cow. But some invest in chicken, ducks and tea plants.
